PRODUCTS WITH DETAILS

**WINDOW BLINDS
ROLLER**

Square Roller Shades, constructed of 100% Polyester, Vinyl, Cotton, Glass fiber & Fire Retardant Material makes a fantastic decorating statement in any room of your home or office. Designed to compliment every décor, Fabric Roller Shades provide you with several style and installation options. We have the right Fabric Roller Shade for you. We offer room darkening blackout shades with Vinyl and Fabric base, as well as standard light-filtering Sun Screen shades and Translucent shades.

WINDOW BLINDS ZEBRA ROLLER

Square Zebra Roller Shade is a brand new innovation where the striped fabric across two layers (Screen + Translucent OR Screen + Blackout) creates the open and closed effect. When the side chain is operated you are able to maneuver the shade to be either closed, so that you cannot see through it or by coordinating the open weave you are able to create the sheer effect (open). If you wish to lift the shade then simply raise the shade like a normal roller shade using the side winder and the shade retracts into the top of the window. The shade is beautifully presented in a cassette and creates a very contemporary roller product.
